

KU SCHOOL OF BUSINESS
DISTINGUISHED ALUMNI 1998
KENNETH J. WAGNON

Ken Wagon's many contributions to KU are best described in one word: leadership. Since his graduation from the KU School of Business in 1960, Ken has actively sought to promote the progress of the University, dedicating himself to the task with the same analytical power and drive that have made him a successful businessman.

As owner and president of Capital Enterprises, Wichita, Wagon has successfully invested in and developed new businesses. He served on the boards of Cessna Aircraft Co., Coleman Co., Fourth Financial Co. and Western Resources, Inc. He served the KU School of Business as a member of its Board of Advisors and a benefactor, providing a distinguished professorship in Finance, a Finance Symposium, a Development Challenge and a student microcomputer laboratory.

Ken was presented the Fred Ellsworth Medallion in 1987 for his outstanding leadership and interest in the progress of the University, and the Distinguished Service Citation in 1991 for his dynamic leadership in business, education and his community.
